

Nagaland Literacy and Numeracy Fest 2026

Cycle- 1: Micro-Improvement Project
(School Leader)

Instructional Leadership in Action

What is this Micro-Improvement Project (MIP)?

This Micro-Improvement Project focuses on strengthening the role of the school leader as an **instructional leader**—someone who actively supports and improves classroom teaching.

A **micro-improvement** is about taking **small, focused steps to improve teaching and learning**. In this case, it means regularly observing classrooms, understanding what is happening, and providing **simple, constructive feedback** to teachers.

Through this project, the school leader moves from:

👉 *Managing the school* → *Supporting teaching and learning*

Why this Micro-Improvement Project?

In many schools:

- Classroom practices are rarely observed
- Teachers receive little or no feedback
- Improvement depends only on training, not ongoing support

When school leaders actively support classrooms:

- Teaching quality improves continuously
- Teachers feel guided and supported
- Student learning improves

This project helps shift from:

Supervision → *Instructional support*

3. Goal

To establish a **regular system of classroom observation and feedback** that supports teachers in improving their practice.

4. Success Criteria (What success would look like)

By the end of this project:

- Classroom observations are happening regularly
- Teachers receive **timely and constructive feedback**
- Feedback is focused and actionable
- Common teaching patterns are identified
- Staff discussions include **classroom practice insights**

5. What would be the impact?

For Teachers:

- Clear guidance on improving classroom practices
- Increased confidence and support

For School:

- Strong instructional leadership
- Continuous improvement in teaching quality

For Students:

- Better classroom engagement and learning experience

6. How to Implement (Guidance + Working Tools)

Task-1

Identify Focus Area for Observation

Detailed Tasks

Start with **one clear focus area**. Avoid trying to observe everything.

Examples:

Student engagement
Reading practices
Questioning techniques
Use of TLM

Observation Focus

This month, I will focus on:

.....

Task-2

Plan Classroom Observations

Decide how you will conduct observations.

Minimum expectation:

- At least **4-10 observations per month**

Observation Plan

Week	Class	Teacher	Focus Area
Week 1			
Week 2			
Week 3			
Week 4			

Task- 3

Use Simple Observation Tool

Focus on what is actually happening in the classroom.

Classroom Observation Tool

What did the teacher do?	What did the students do?	Key Observation

Keep it simple and factual. Avoid judgment.

Task- 4

Encourage Sharing Micro Improvements

- Give feedback ***on the same day or the next day***
- Keep it short and supportive
- Start with what worked well

Feedback Framework

What worked well:

.....
.....

One suggestion for improvement:

.....

Task- 5

Track Common Patterns

Over multiple observations, identify patterns.

Observation Insights Tracker

<i>Common Strengths</i>	<i>Common Challenges</i>

Task-6

Share insights with teachers

Use staff meetings to:

- Share common strengths
- Discuss common challenges
- Suggest simple strategies

Keep it focused on ***collective improvement***, not individual criticism.

Staff Sharing Notes

- Key strengths observed:

.....

- Key areas to improve:

.....

- Suggested actions:

.....

Task-7

Reflection & Review

At the end of the month, reflect:

- Are classroom visits happening regularly?
- Are teachers responding to feedback?
- Is there visible improvement in practices?

Reflection Notes

- What worked well?

.....

- What challenges did I face?

.....

- What will I improve next month?

.....

Final Note

This is not about checking or judging teachers.

It is about:

- **Supporting teachers**
- **Improving classroom practices**
- **Building trust and collaboration**

Start small:

- One observation
- One conversation

- One improvement

Over time, this will lead to ***strong instructional leadership and better learning outcomes.***

Note: Apart from this micro-improvement project, you can also take up ***any other small action that requires immediate attention in your school,*** based on your context.
